HENRY F. MICHELL CO., 518-516 MARKET ST.
PHILADELPHIA, PA.

Orders at prices in this catalogue will be filled only for those engaged in the florist, landscape gardening and market gardening business, or others entitled to such prices. We reserve the right to refuse to fill orders for others not entitled to these prices.

As a protection to our customers who are entitled to wholesale or florist's prices we ask that they do not lend this catalogue to persons not entitled thereto. It will save us considerable embarrassment. Tell them to send for our "Seed Book"—Free upon request.

NOTICE TO CUSTOMERS OUTSIDE OF THE UNITED STATES—In remitting for purchases at the time of ordering, or when paying accounts, by reason of the Exchange we ask that you please send P. O. Money Order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in U. S. Funds.

WE ESPECIALLY INVITE CHARGE ACCOUNTS—A charge account is more convenient than to remit for each order at the time it is sent us; you pay no more for your goods by reason of this accommodation. As to our responsibility, we refer you to **Dun's or Bradstreet's Mercantile Agency** or any bank or trust company.

When sending your first charge order, refer preferably to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

DISCOUNTS: Cash bills for Flower Seeds, Vegetable Seeds and Bulbs, a discount of 2% for payment 10 days from date of bill may be deducted; 5% cash discount is allowed on all orders of Flower Seeds and 3% cash discount on all orders of Vegetable Seeds and Bulbs when remittance accompanies the order, unless on items specially quoted or priced. Cash discount above does not apply to dealers' orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

SPECIAL NOTICE—We prepay postage free on all Flower and Vegetable Seeds offered in this Catalog, except on Peas, Beans, Corn and such other items as may be noted. We do not prepay free postage on Plants, Bulbs, Sundries, Tools, etc., nor do we prepay free any items on which we may have quoted special prices. All postage is charged on dealers' orders regardless of items ordered.

PLEASE NOTE CHANGES IN POSTAL RATES—On sundries or other merchandise (not including Seeds, Bulbs, Roots or Plants) not exceeding

eight (8) ounces in weight, the postage charge is 1½c. for each two (2) ounces or fraction thereof. On Seeds, Bulbs, Roots, Plants, Sundries, etc. weighing over eight (8) ounces in addition to the regular postage, there is to be added an additional 2c. to each package as a service charge.

If Special Delivery is wanted an additional 10c. is required on packages weighing up to two (2) pounds—15c. on packages weighing more than two (2) pounds and up to ten (10) pounds—20c. on packages weighing more than ten (10) pounds.

If it is desired that a package be given the same dispatch as first-class mail it requires an additional 25c. to the amounts as stated above, which is called a "Special Handling" rate.

If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

We do not make shipments of Plants or Cold Storage Bulbs C. O. D., and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

IMPORTANT NOTICE—All shipments of Plants, Perishable Stock and Cold Storage Bulbs are made at buyers' risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the **actual arrival** of goods, except at points where there is no freight or express agent, will still be continued, and claims for loss or **non-arrival** of merchandise **not perishable** will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

CONDITIONS OF SALES—All contracts, sales and acknowledgments of orders are contingent upon crop failures, partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order. Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods. No responsible seedsman can give a warranty.

Please note parcels post charges quoted by us are for delivery in the United States only.

Michell's Flower Market Stock

Michell's "Distinctive" Stocks

Stocks are invaluable, and are one of the most profitable flowers to raise, provided you sow the right strains. For years we have made a specialty of supplying "Distinctive" strains, which are easily distinguished by their superior quality, strong germination and a remarkably small percentage of single flowers.

MICHELL'S FLOWER MARKET STOCK

A branching stock of remarkable vigor of growth and size of bloom; produces its flowers evenly distributed over the stem and very early. A single plant will produce from 10 to 15 separate flower branches equally perfect.

GIANT DAHLIA FLOWERED ZINNIA

This new strain of Zinnias which is entirely distinct from the ordinary Giant Flowering class is valuable for growing under glass for cutting, requiring the same treatment as the Calendula. As a quick summer crop under glass they pay well. The flowers so closely resemble Dahlias that when placed by their side it is difficult to distinguish one from the other.

MICHELL'S MUSHROOM SPAWN PURE SPORE CULTURE SPAWN

This spawn is made in quart milk jars under absolutely sterile conditions. The bottle and materials are sterilized under steam pressure of twelve pounds, so that every mold, weed seed or insect is destroyed and each bottle contains nothing but the pure spawn. The cost is not much more than brick spawn considering how much further it goes; each jar contains enough for 30 to 40 square feet. The sterile spawn is dried thoroughly and each piece wrapped in tissue paper and contains full instructions. There is a rapidly increasing demand for fresh mushrooms, just as there is for hot-house tomatoes and other greenhouse products; the price is always good and markets are usually nearby.

If wanted by Parcel Post, allow 10c. per carton for postage.

PURE CULTURE BRICK SPAWN

If wanted by Parcel Post, allow for postage at the rate of 10c. per brick.

A crop is produced with good spawn, a little care and patience in about 4 to 6 weeks, and continues in bearing about two months. New beds can be started at intervals which will give a supply the entire season. The first planting can be made in July, the last in March. Summer spawned beds do not bear well. Ask for our Free Booklet on Mushroom Culture. 1 Brick will spawn 8 to 10 sq. ft.

MICHELL'S HYACINTHS

IMPORTANT NOTICE TO OUR FLORIST CUSTOMERS.—It should be borne in mind that Easter 1926 comes on April 4th, and it is of importance that florists keep this in mind, particularly when planting and handling their bulbous stock. It is recommended that florists, in addition to their usual varieties of Tulips, forced, plant some of the Darwin Tulips for fine results. These flower later than usual, and if we have a warm period at Easter, they will be particularly desirable. They are reasonable in cost and command a good reselling price.

PLEASE NOTE.—Original packages of Hyacinth Bulbs contain the following quantities: First size, 50 bulbs; second size, third size, and unnamed, 100 bulbs; miniature, 250 bulbs; if possible please order in these unit quantities.

IMPORTANT NOTICE

PLEASE READ

The Federal Horticultural Board of the United States Department of Agriculture has decided to forbid the importation of all varieties of Narcissus Bulbs for garden bloom, house culture or for forcing under glass after 1925. They claim this action is necessary because of insect pests which the Narcissus Bulbs might introduce.

We have no knowledge of any so called menace to any industry caused by Narcissus Bulbs. Every shipment is certified, by competent foreign entomologists, to be entirely free from all insect pests.

The Department of Agriculture has never granted the flower lover, (you who plant for pleasure or profit) or, we who import Narcissus as a part of our business, a hearing on the subject, as the law requires; they know only one side, their own.

If you want Narcissus in ample supply, write your Senators and Congressmen and protest against the enforcement of the Narcissus Embargo under quarantine No. 37, without a public hearing. There are 100,000,000 (one hundred million) Narcissus Bulbs used in the United States each year.

If you are interested in getting Narcissus Bulbs that will bloom, after 1925, at a reasonable price, write your Senators and Congressmen today.

Respectfully,

HARDY JAPANESE LILIES Cold Storage

We have these to offer in the most popular varieties and in various sizes, for shipment at any time up to October 15th. They are in fine, plump, dormant condition. Prices quoted upon application.

SUGGESTIONS IN CONNECTION WITH THE GROWING OF HARDY LILIES UNDER GLASS

Many florists are of the belief that these can be forced rapidly like Giganteums. This is, however, not so. They should be grown more cool and be given a greater length of time in which to flower. It usually takes from 16 to 18 weeks from the time of planting to bring them into bloom, if the best results are to be obtained. In fact, if you can give them longer to come into flower it is better. Where they are forced with plenty of heat, the result is that you get good foliage with not so many blooms early. The latter is usually from a money making standpoint. We have particular reference to Lilium Magnificum, Melpomene, Rubrum and Album.

IRIS (Ready in October)

If it is desired to flower bulbous Iris under glass, on arrival flat them as you would Freesias, in light, sandy soil, bury them outdoors, covering with screened ashes or sand with sash off; leave them out until thoroughly rooted, but do not let them freeze; bring them in normally about November 15th and place them in a cool house—a carnation house temperature suits them best—allowing them to come into growth and flower slowly; under this treatment we believe better flowering results will be obtained. They generally under this method bloom in March or early April. They may also be planted in benches among carnations, but we believe American grown stock, which is all that is available, will give best results under the first prescribed method. Iris Tingitana and Filifolia may be handled in the same way. The Dutch and Spanish Iris are hardy for one season and may be planted outdoors in a sunny location, for spring cut flowers. The Tingitana and Filifolia varieties are not hardy in the latitude of Philadelphia.

Spanish. Best named varieties. List on request.

Dutch (Hollandia). Best named varieties; list on request.

Filifolia, Imperator. Blue.

Tingitana. Dark blue and yellow.

Prices on Iris will be established later.

Geranium, Helen Michell

GERANIUM, HELEN MICHELL

Grows compact, medium dwarf, with lustrous green foliage and throws up gigantic flower-heads very freely. We claim it to have the largest flower-heads of any of the Bedding Geraniums. The individual blooms frequently measure 2 inches across. It is a common occurrence that a single 4-inch pot plant shows four fully open gigantic flower-heads, several half open and more in bud. We further claim that "**Helen Michell**" is the best **Commercial Scarlet Geranium** in existence. Prices, 2 1/4-inch pots, \$1.50 per doz. (by Parcel Post, \$1.75); 25 for \$2.50; \$9.00 per 100; per 1000, \$80.00.

We are now booking orders for 5-inch and 6-inch pot plants of Kentia Belmoreana for delivery in September. Price on application.

Hydrangea

MICHELL'S FORCING HYDRANGEAS

For several years we have been making a specialty of growing Hydrangeas for the florist's trade. The list of commercial varieties has become so voluminous that we have combed it thoroughly with the result we are offering what we consider the best sorts for the commercial grower to handle. We grow these in great numbers and feel certain the quality of our plants will please the buyer.

Baby Bimbinet. Dwarf silvery rose; early and very free.

Gen. deVibraye. Large bright rose.

Otaksa. The old favorite and still one of the best.

Radiant. Deep rosy carmine.

Prices, for any of the above varieties, 2-inch pots, \$1.50 per doz.; per 100, \$10.00.
